Eric,
I think it's a good idea to follow-thru & have this meeting on Mon 10/31. In our 10/12 PH Mgr mtg, we talked about setting-up weekly EPA/LWG mtgs for EPA to advise the LWG where we are on our CSM/SMA, ERA/HH risk assessment, & identification of data gaps efforts..., largely to make good on our commitment of "no surprises".

I agree with you, I think we ought to use the 10/31 meeting to cover CSM/SMA, ERA/HH risk assessment, & identification of data gaps efforts. I think Dave's proposed agenda lists some of your topics, but Dave's agenda doesn't focus in on them. I suggest the agenda focus on what our 2 Work Groups are doing & data gaps.

Matt suggested adding an agenda item about system loading from upstream sources.

Matt, Jim and Jean, here is a draft agenda for Monday's meeting. I have a call into Dave Livesay to discuss this further but I was hoping that we would use some of this time to update the LWG on where we are with regard to CSM, SMAs, ERA process, HHRA process and overall data gaps. This is not really encompassed in the attached agenda. In any event, any thoughts on this agenda are appreciated.

Thanks, Eric

Draft Meeting Agenda

Please find attached a draft agenda for our meeting on Monday 10/31. Take a look and reply with your comments, or give me a call to discuss. I will finalize this agenda and send it back out once I hear from you all. I did not copy Jim A. or Matt, so please feel free to forward this to them.

Thanks,
Dave
